

Figure 1

Technical drawing of a tapered container (C) with dimensions and labels:

- T**: Top flange or cap.
- B**: Body of the container.
- E**: End flange or base.
- Di**: Internal diameter at the top.
- Db**: Diameter of the top flange (T).
- Dc**: Diameter of the body (B) at the top.
- Lu**: Length of the tapered body (B).
- Lc**: Total length of the container (C).
- Da**: Diameter of the base (E).

The diagram shows a three-stage cascaded system. Each stage consists of a block with a downward-pointing triangle. The output of one stage is the input to the next. Each stage has a downward arrow indicating a loss or output at that stage.
